

ipana[®] Freezee Stik[®] Periodontal Anesthetic Gel

ipana Freezee Stik Periodontal Anesthetic Gel uses a single-use package system, providing an ideal dose of benzocaine while also reducing the risk of cross-contamination and eliminating waste.

This product is specially designed to offer fast-acting and temporary relief prior to local anesthetic injections, scaling, prophylaxis, or minor dental procedures. To use ipana Freezee Stiks, simply remove the cover, dip the swab applicator into the well of benzocaine gel and apply.

Each unit contains a single flavoured dose (0.3 mL) of flavoured benzocaine gel and one clean swab applicator. Flavours include Mint and Cherry, with no bitter aftertaste.

- ▶ Unit dose delivery (0.3 mL) allows for ease of use and cleanup
- ▶ Eliminates cross-contamination or excess waste of product
- ▶ Contains 20% benzocaine gel
- ▶ Rapid onset plus great taste of your choosing
- ▶ Easy "take-home" treatment for post-op discomfort
- ▶ Soft tip applicator is gentle on soft tissue
- ▶ Made in USA
- ▶ **NPN 80126440**
